

DATA STORAGE DECLARATION

Natural person:

Name:

Mother's name:

Place and date of birth:

Telephone:

E-mail:

Address:

The Service Provider stores the Customer's data in the iTrack system in a queryable manner, at least for two years. Older path data are finally deleted without any special notice.

In this annex, the Customer makes a declaration about data storage for a period different from above.

In this contract the Customer declares to request the final deletion of its data after year/s. The Customer also declares not to raise any quality complaint to the Service Provider for the period of the deleted data, and regards this period as approved fulfilment. Deleted data cannot be restored.

In this contract the Customer declares to request archiving of its data older than 2 years. If requested by the Customer, the Service Provider restores the data (makes them queryable again) in the iTrack system against extra payment.

Final deadline of data storage: 8 years.

The data restoration fee after archiving is HUF 5,000 for one vehicle and + HUF 500 for every further vehicle, however, at most HUF 50,000. The restored data are accessible in the iTrack system in a manner identical with fresh data. Data can be queried for 30 days after restoration, then they are archived again.
